## RECORD OF APPLICABLE TIME COMPLIANCE TECHNICAL ORDERS

| T.O. Number        | Date      | Title   | Chg./Rev.<br>Supp. Date |
|--------------------|-----------|---|-------------------------|
| 2J-F100-839        | 31-OCT-95 | MODIFICATION OF PWA 57102 ADAPTER ON MANUAL RETRACT ACTUATOR CYLINDER FOR REAR COMPRESSOR VARIABLE VANE (RCVV), F100-PW-220 ENGINES (EC 88NC218)                        | 01-NOV-95               |
| 2J-F100-854        | 30-JUN-95 | MODIFICATION OF REAR COMPRESSOR TURBINE ROTOR FRONT BALANCE FIXTURE PN PWA 51222, F100-PW-100/-200/-220/-220E ENGINES, F-15/F-16 AIRCRAFT(EC 89NC100)                   | 01-AUG-95               |
| 2J-F100-855        | 01-JAN-96 | MODIFICATION OF PLATE, BALANCING, SINGLE PLANE VERTICAL (REAR COMPRESSOR) PN PWA 51677 (EC 89NC065)   | 01-FEB-96               |
| 2J-F100-860        | 30-OCT-93 | REOPERATE PWA 52408/PWA56512A PULLER FOR NO. 4 BEARING REAR AIR SEAL AND REIDENTIFY TO PWA 56512B, F100-PW-100/-200/-220/-220E ENGINES, F-15/F-16 AIRCRAFT (EC 91NA085) | 01-NOV-93               |
| 2J-F100-890        | 15-JUL-95 | MODIFICATION OF PWA 57447 PULLER, F100-PW-100/-200/-220/-220E/-229 ENGINES, F-15/F-16 AIRCRAFT (EC 94QC003)   | 01-FEB-96               |
| 2J-F100229(VI)-506 | 15-MAR-95 | REOPERATION OF PWA 57503 ASSEMBLY/DISASSEMBLY STAND FOR F100-PW-229 HIGH PRESSURE TURBINE (EC 90QA009-1)  | 01-MAY-95               |
| 2J-F100229-540     | 30-AUG-97 | MODIFICATION OF PWA 57655 TORQUE FIXTURE IN TOOL SET PWA 57658, TO PREVENT WRENCH SLIPPAGE, F100-PW-229 ENGINES, F-15/F-16 AIRCRAFT (EC 92QC102C1 AND EC 96QC131)       | 01-NOV-97               |
| 2J-F100229-541     | 28-SEP-98 | MODIFICATION OF PWA 55760 FIXTURE FOR IMPROVED PART RETENTION, F100-PW-229 ENGINES, F-15/F-16 AIRCRAFT (EC 92QC109)   | 01-FEB-99               |
| 2J-F100229-546     | 30-SEP-95 | MODIFICATION OF RETAINER BALL LOCK PIN HANDLE PWA 57614, F100-PW-229 ENGINE, F-15/F-16 AIRCRAFT (EC 93QC038)  | 01-NOV-95               |
| 2J-F100229-579     | 15-MAY-97 | MODIFICATION OF PWA 57797-8 CONTAINER F100-PW-229 ENGINE, F-15/F-16 AIRCRAFT (EC 96QC123)   | 01-MAY-97               |
| 2J-F100229-580     | 15-MAY-97 | REWORK OF PWA 57798 RETAINER, FAN WASHER, F100-PW-229 ENGINE, F-15/F-16 AIRCRAFT (EC 96QC123)   | 01-MAY-97               |
| 2J-F100229-585     | 30-SEP-98 | MODIFY PWA 57765 HPT ASSEMBLY/DISASSEMBLY STAND BY REOPERATING PWA 57504-1 CRIMPER, F100-PW-229 ENGINES, F-15/F-16 AIRCRAFT (EC 96QC127)                                | 01-FEB-99               |
| 2J-F100229-587     | 15-OCT-98 | REOPERATION OF PWA 57753 HYDRAULIC PUSHER, F100-PW-229 ENGINES, F-15/F-16 AIRCRAFT (EC 94QC005)   | 01-FEB-99               |

## SECTION I INTRODUCTION

1. **PURPOSE.** This manual lists and describes the support equipment for the F100 model engines manufactured by United Technologies Corporation, Pratt & Whitney, Government Engines & Space Propulsion, P.O. Box 109600, West Palm Beach, Florida 33410-9600, U.S.A. The illustrations in this manual are intended primarily to facilitate identification of parts. This manual is intended as a supplement to, not a substitute for, the associated maintenance manuals which shall be considered the final authority on assembly and repair procedures.

2. **TABLE OF CONTENTS AND LIST OF ILLUSTRATIONS.** The Table of Contents and List of Illustrations at the front of the manual outlines the sections and lists the illustration titles contained herein.

3. **MAINTENANCE PARTS LIST.** The Maintenance Parts List (Section II) consists of the support equipment divided into main groups, alphabetically arranged, as shown in the Table of Contents and List of Illustrations. Each assembly listed has its component parts indented thereunder, to show their relationship to the assembly.

4. **UNITS PER ASSEMBLY.** The quantities listed in the Units per Assy column of the Maintenance Parts List are, in the case of assemblies, the total quantity used per support equipment at the location indicated, while the component parts indented under the assemblies are quantity used per assembly.

5. **PART NUMBERS.** Part Numbers are used exclusively to identify parts.

6. **INDEX NUMBERS.** The index numbers appearing on the illustrations are sequentially listed within figures in the Maintenance Parts List and are used to assist in locating a part in the Maintenance Parts List after it has been found on an illustration.

7. **NUMERICAL INDEX.** The Numerical Index (Section III) and all other lists and tables containing alpha/numeric values are compiled in accordance with the computer collating sequence called ASCII (American Standard Code for Information Interchange). The following describes the ASCII collating sequence:

- a. Part number sequencing starts in the left-hand column and continues from left to right, one column at a time, until part number numerical arrangement is determined.

The order of precedence in part number arrangement is as follows:

Space (blank column)

Dash (-)

Slash (/)

Numbers zero through 9

Letters A through Z

|          |            |
|----------|------------|
| 1        | A 1253     |
| 14-27599 | A-28300    |
| 157545   | AAF356-524 |
| 29-623   | AN360-6    |
| 370-960  | MS9906     |
| 370/821  | NAS1390    |
| 77818    | ST1381-05  |

8. **ALPHABETICAL INDEX.** The Alphabetical Index (Section IV) is a list of support equipment by their noun names with reference to their location in the manual.

9. **ATTACHING PARTS.** Attaching parts are listed immediately beneath the item to be attached and preceding any detail parts of the item. They are listed at the same indentation as the part they attach and are identified as (AP).

10. **SUPERSEDED AND REPLACE PARTS.** Supersedes indicates that the old and the new parts are interchangeable. Replaces indicates that the old and the new parts are not interchangeable. The disposition of parts subject to the terms Supersedes and Replaces as identified in this manual shall further be governed by any applicable specific instructions, such as Time Compliance Technical Orders.

11. **DIMENSIONS.** All dimensions shown herein are nominal. They are inserted to facilitate identification for ordering and are not to be construed as restrictive in inspection.

12. **VENDOR PART NUMBERS.** Various items of equipment such as pumps, controls, nuts, screws, washers, pins etc., are listed under the vendor's part number with the Pratt & Whitney part number following the description in the Maintenance Parts List (Section II).

13. **PARTIAL BREAKDOWN FOLLOWS.** The words PARTIAL BREAKDOWN FOLLOWS shall precede the breakdown listing to indicate these are not complete listings of all the detail parts of an assembly.

## T.O. 2J-F100-94

14. SOURCE, MAINTENANCE, AND RECOVERABILITY (SMR) CODES. Definitions of applicable source, maintenance, and recoverability (SMR) codes are set forth in T.O 00-25-195.

15. ABBREVIATIONS. The abbreviations used throughout this manual are in accordance with MIL-STD-12. The following is a list of abbreviations used that do not appear in MIL-STD-12:

| Abbreviation    | Full Name                              |
|-----------------|--|
| (AP)            | Attaching Parts                        |
| CAGE            | Commercial and Government Entity       |
| CENC            | Convergent Exhaust Nozzle Control      |
| CIVV            | Compressor Inlet Variable Vane         |
| DBA             | Doing Business As                      |
| DEEC            | Digital Electronic Engine Control      |
| EDU             | Electronic Diagnostic Unit             |
| EEC             | Engine Electronic Control              |
| FTIT            | Fan Turbine Inlet Temperature          |
| HPC             | High Pressure Compressor               |
| LOD             | Light Off Detector                     |
| PW, PWA or P&WA | Pratt & Whitney                        |
| PLA             | Power Level Angle                      |
| PS2             | Engine Inlet Static Pressure           |
| RCVV            | Rear Compressor Variable Vane          |
| REOP AND REID   | Reoperation and Reidentification       |
| TOBI            | Tangential Outboard Injector           |
| TT2             | Total Temperature at Fan Inlet         |
| UNJ             | Unified National (j thread)            |
| UNJC            | Unified National Coarse (j thread)     |
| UNJEF           | Unified National Extra Fine (j thread) |
| UNJF            | Unified National Fine (j thread)       |
| UNJS            | Unified National Special (j thread)    |
| UOC             | Usable On Code                         |
| UPA             | Units Per Assembly                     |

16. SYMBOLS. The symbols used throughout this manual and their explanations are as follows:

|    |   |
|----|---|
| PW | - This symbol preceding a part number in the Numerical Index identifies the Pratt & Whitney part number for a vendor furnished part.  |
| S  | - A part number in the Numerical Index preceded by an S indicates that the part number at the location so identified has been superseded or replaced. Whether the part has been superseded or replaced will be clarified by reference to the Maintenance Parts List.  |
| *  | - An asterisk (*) following a part number indicates these parts, such as markings, decalcomanias, metalcalcs, and vinyl film markings, must be requisitioned in accordance with the requirements of AFR 6-1.  |
| %  | - Indicates a classified part or a part available in oversize and/or undersize.   |
| <  | - Certain parts which are not illustrated and cannot be assigned the letter F are identified by the symbol < adjacent to the part number of the part in the Numerical Index.  |
| R  | - An R in the margin of a Maintenance Parts List Page indicates a change to the adjacent line. The R symbol will identify only those items changes since the prior issue (Revision or Change) and will be deleted when the page is subsequently revised or changed.   |
| F  | - The letter F means follows. The letter F preceding a figure and index number in the Numerical Index is used to identify an assembly or part that has not been assigned an index number. The figure and index number of the preceding illustrated part or assembly in the Maintenance Parts List is assigned to facilitate locating those parts in the Maintenance Parts List. |
| #  | - A number sign (#) following a part number identifies a Government Furnished Equipment (GFE)/Contractor Furnished Equipment (CFE) item that has its detail parts listed in a separate manual. Refer to paragraph number 18. (List of Accessories) for the publication number.  |
| =  | - An equal sign (=) preceding a part number indicates alternate items installed during manufacturing or modification.   |

17. CAGE CROSS REFERENCES. Cross references to the manufacturer's code used throughout this manual are in accordance with DoD Cataloging Handbook H-4/H-8, Commercial and Government Entity (CAGE) Codes.

## T.O. 2J-F100-94

19. USABLE ON CODE INDEX. Usable On Codes are assigned to prevent incorrect use of support equipment or parts. Codes which appear on the Usable On Code columns in Section II identify support equipment or parts which are restricted to specific engine model or support equipment. If no Usable On Code is assigned, there are no restrictions.

| UOC | MODEL DESIGNATION                  | DESCRIPTION  |
|-----|------------------------------------|--|
| A   | F100-PW-100                        | Parts coded A are for F100-PW-100 only   |
| B   | F100-PW-200                        | Parts coded B are for F100-PW-200 only   |
| C   | F100-PW-220                        | Parts coded C are for F100-PW-220 only   |
| D   | F100-PW-229                        | Parts coded D are for F100-PW-229 only   |
| E   | F100-PW-100 and 200                | Parts coded E are for F100-PW-100 and 200 only                                 |
| F   | F100-PW-100 and 220                | Parts coded F are for F100-PW-100 and 220 only                                 |
| G   | F100-PW-100, 200 and 220           | Parts coded G are for F100-PW-100, 200 and 220 only                            |
| H   | F100-PW-220 and 229                | Parts coded H are for F100-PW-220 and 229 only                                 |
| J   | F100-PW-200 and 220                | Parts coded J are for F100-PW-200 and 220 only                                 |
| K   | F100-PW-200, 220, and 229          | Parts coded K are for F100-PW-200, 220 and 229 only                            |
| L   | F100-PW-100, 200 and 229           | Parts coded L are for F100-PW-100, 200 and 229 only                            |
| M   | F100-PW-100 and 229                | Parts coded M are for F100-PW-100 and 229 only                                 |
| P   | F100-PW-100, 200, 220,<br>and 229  | Parts coded P are for F100-PW-100, 200, 220 and 229 only                       |
| Q   | F100-PW-220 and 220E               | Parts coded Q are for F100-PW-220 and 220E only                                |
| R   | F100-PW-100, 200 and 220E          | Parts coded R are for F100-PW-100, 200 and 220E only                           |
| S   | F100-PW-100, 200, 220,<br>and 220E | Parts coded S are for F100-PW-100, 200, 220 and 220E only                      |
| T   | F100-PW-220E                       | Parts coded T are for F100-PW-220E only  |
| U   | F100-PW-100 and 200                | Parts coded U are used only to retrofit F100-PW-100 and 200<br>to F100-PW-220E |
| V   | F100-PW-220, 220E and 229          | Parts coded V are for F100-PW-220, 220E and 229 only                           |

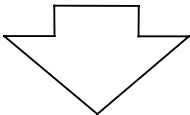

20. **HOW TO LOCATE A PART.** The following procedures describe the operations used to locate a part in the Maintenance Parts List if the part number is known or is not known.

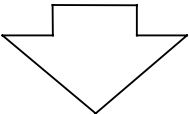

IF PART NUMBER IS NOT KNOWN . . . DO THIS

1. TURN TO THE LIST OF ILLUSTRATIONS. FROM THIS LIST, SELECT THE ILLUSTRATION MOST LIKELY TO CONTAIN THE DESIRED PART. NOTE FIGURE NUMBER OR PAGE.

2. REFER TO THE FIGURE NUMBER OR PAGE NUMBER OF THE ILLUSTRATION SELECTED FROM THE LIST OF ILLUSTRATIONS. LOCATE THE DESIRED PART ON THE ILLUSTRATION. NOTE INDEX NUMBER.

3. REFER TO THE CORRESPONDING MAINTENANCE PARTS LIST. LOCATE THE INDEX NUMBER SELECTED FROM THE ILLUSTRATION FOR PART NUMBER, NOMENCLATURE, ETC.
